

Tips on shortening your visit to the Treasury Department.

Although lines can not always be avoided, the following tips are ways to help ensure your visit to the Treasury Department is not a lengthy one.

If paying your taxes, know your account number. You can find it on your tax bill.

If paying an invoice, bring the invoice with you or know your customer number.

If paying your sewer bill, we would recommend first that you pay your bill at the Wastewater Treatment Plant or leave your payment in the mailbox outside Treasury designated for Sewer payments. If you choose to pay in Treasury then you should bring your payment stub from your bill.

If registering your vehicle, boat, ATV, or snowmobile, read the portions on this web page concerning what you need to do and bring everything listed on those pages.

The more information you have ready when you arrive the less time it will take us to process your transaction
